WIMR WEST WEDGE ADDITION

MSN #1485-1602

Summary – This project designs and constructs two floors (21,131 ASF/32,400 GSF total) of new office and laboratory space above the existing single-story structure on the west side of the Wisconsin Institutes for Medical Research (WIMR) Building, 1111 Highland Avenue. The existing space contains the Surgical Pathology Department, was constructed by the University of Wisconsin Hospital and Clinics (UWHC) and completed in summer of 2014. The proposed two additional west wedge floors will be used to meet the growing demand for offices and laboratories on the clinical west campus.
